

Generating an EFI Authorization Code

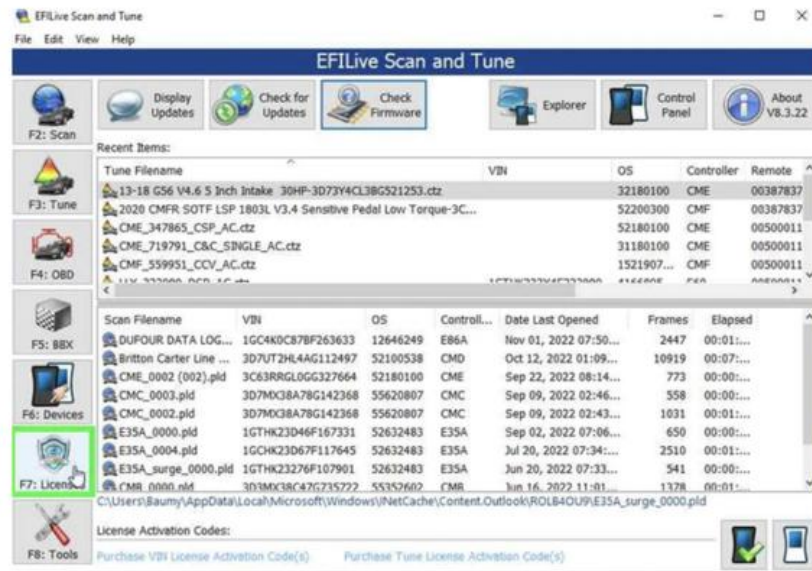

Step 1: Open Up EFI Live & left click on "Check Firmware (button)" in "EFILive Scan and Tune".

Step 2: Left click on "OK (button)" in "Update Firmware and Configuration Files". Update firmware if it is out of date.

Step 3: Left click on "F7: Licenses (button)" in "EFILive Scan and Tune".

Step 4: Left click on "FlashScan and AutoCal Licensing (window)" in "Flashscan and AutoCal Licensing". Left click on F3 VINS

Step 5: Left click on "Generate Auth Code (button)" in "FlashScan and AutoCal Licensing". Make sure your device shows that more VIN licenses may be purchased.
