

+2018 RAM Security Gate Bypass Cable Installation

***This Cable is intended for permanent Install.**

READ THROUGH 2 PAGES of instructions carefully, if no success read instructions again.

1) Locate the back of the OBD2 Connector.

2018 Year

Replace the YELLOW with YELLOW and the GREEN with TAN in pins 6 & 14 of the OBD.

The opposite end plugs into the star connector (location varies usually above ebrake under the dash).

2019-2024 Years

Replace the YELLOW with TAN and GREEN with YELLOW in pin 6 and 14 of the OBD.

The opposite end plugs into the star connector (location varies usually above ebrake under the dash).

For 2019 -2021 Far left, 5th one down is preferred location on the bank with the black base.

2022-2024 use the bottom one on the far left.

ERROR CODES \$0549 \$0333

Mean you are either in the wrong place on the star connector, or you have pins 6 and 14 backwards.
